     https://www.atlassian.com/customers?page=1&sortParam=date_created%20desc retrieved on April 10, 2016)

- Why do you believe agile is trending in the industry as the preferred project methodology?
  1. Agile is a uniformed approach to management that can be used across many business platforms. It provides opportunities to assess the direction of a project through its development. This is achieved through regular cadences of work and at the end of which teams must present a potentially prepared "product".
